Shape
the
Future

The screenshot shows the Microsoft Connect website interface. At the top, there is a navigation bar with the Microsoft Connect logo and links for Home, Dashboard, Directory, Help, and Sign in. Below the navigation bar is a search section titled "Search Products accepting bugs or suggestions". It features a search input field with the placeholder text "Visual Studio, SQL Server, etc." and a blue "Search" button. Below the search button is a link to "Browse the full Product Directory".

Below the search section, there are two statistics:

- 12 Products currently **accepting bugs** [Browse](#)
- 7 Products currently **accepting suggestions** [Browse](#)

Below the statistics is a section titled "FEEDBACK IN ACTION". It is divided into two columns:

- Latest Bug Fixed** to date: 160,771
A bug report icon followed by the text: **Install not working - Error Message "A request to the f...**
by: Harry Pflieger | on: Visual Studio and .NET Framework
- Latest Suggestion Implemented** to date: 14,746
A lightbulb icon followed by the text: **BugBash: Dynamic Management View or Function to expose ...**
by: Erik Darling | on: SQL Server
