### 1100–1145 CHECK YOUR ENGINES

Your employees and clients are the engine of your business, and understanding how to steer them into a symbiotic relationship is crucial to success. Get involved in our ideas exchange workshops to hash out the actionable details behind the hype.

**Workshop 1:** Driving your resource engine: discover the art of the possible using the Hedgehog concept to finetune your biggest operational challenges.

**Workshop 2:** Resilience in agile working: changing your operational models to meet security needs.

**Workshop 3:** Managing the client life cycle and meeting their rapidly changing needs.

### 1145–1230 ACCELERATION

The drivers for growth vary across firms, but there are some common denominators that can't be ignored. In each session we'll kick off with a punchy presentation and then free flow discussions will follow.

**Workshop 1:** Client strategy: where is our work coming from and why are we winning it?

**Workshop 2:** Unpicking the future of finance and management data – what can be done, and what is next?

### 1230–1330 // REFUEL //

Grab some lunch and keep learning. As you munch, you can listen to our **Partner Roadmap** pitches as each one takes to the winner's podium, swiftly outlining the future of their products and services.

### 1330–1500 OPTIMISING (HUMAN) PERFORMANCE

**Workshop:** Understand how to remove behavioural roadblocks to change within your business, by managing the energy of your teams.

*Sarah Baxter, senior facilitator, The Energy Project*
